

15_Infinity_Nordic Urban

Look System

This composition creates impeccable Nordic atmospheres by means of a clever choice of colours, finishes and design solutions.

Two solid, compact volumes in Graniglia Fiume, one with the hob and the other with the sink, are united by a new 6 cm thick oval top in Rovere Sesamo that seems to emerge from the two work islands.

Rovere Sesamo is also the finish chosen for the block of tall units and for **the oval wall unit** – the other **new product presented at Salone del Mobile 2022.**

This original idea boasts a suitable storage capacity for kitchen or lounge use, and offers a choice of two carcass sizes, 60 x 48 cm and 120 x 36 cm. The unit is closed by a door with rounded corners.

The new wall unit is available in Rovere Sesamo, Rovere Anice, Rovere Liquirizia and Rovere Cumino and also comes with original graphics: Bamboo, Mosaic, Dot, and Sakura.
