

## 11\_Young \_Urban

### Look System

**The Young Urban kitchen draws on metropolitan style** to furnish compact spaces without compromising on the storage capacity and functionality essential to open space kitchens alongside living areas.

**The composition extends in a straight line.** 2 maxi-height tall units hold the appliances and provide extended storage capacity. The work area features tall wall units and base cabinets in single colour Giada with a top in Pietra Ghiaia.

**A full-height splashback in Pietra Ghiaia provides the background for a two-shelf module** enclosed at the drainer by a door in Pietra Giada.

Opposite, in the corner, are the **living area elements. These comprise floor-standing base cabinets in Noce Nordico with a niche in the same finish and a new 60 x 48 cm oval wall unit whose door features a screen-printed Bamboo graphic.**
