

04_Metropolis Elegance Charming Evolution System

This composition takes the shape of a “U”. The tall unit block on the right is equipped with floor-length doors in textured Piasentina Scura laminate with brushed Nero grooves. The central section features 75 cm wide base cabinets and wall units in matte Ginseng PET and a Joy System-equipped inter-base splashback in Piasentina Scura – the same finish as the top and 12 cm drawers, which have an L-shaped handle in the base cabinets. The Pietra Piasentina Scura top extends over the peninsula, which features new drawer sizes on the inside and outside: 12 cm high for cutlery and utensils, 24 cm high for tablecloths and napkins, and 36 cm high for pans and cookware. Plinths and grooves are in brushed Nero. New, open, side wall units in sheet metal
