

05_Color Trend_Natural_Elegance

Evolution System

The composition displayed here presents **many of the design elements introduced by Stosa Cucine for Salone del Mobile 2022.**

This **striking kitchen stands out for its sophisticated combination of colours and materials and for the variety of furnishing and storage elements included.**

The display kitchen features 3 different volumes. The tall unit block on the right, with doors in the gloss Ginepro lacquer finish and Bronzo knurled handles, is divided into two by the new Noce Elegant boiserie.

This boiserie is also found in the front volume of 295 cm in width and 380 cm in height. To close the "U" layout, this supports the peninsula with hob, sink, drip-saver worktop in Forest Magnolia quartz by Quartzforms®, doors and drawers in gloss Ginepro lacquer and insert in Ribbed Noce Elegant.

The elegant oval table with tennis leg extends the peninsula and gives the kitchen a larger, more sophisticated worktop that can be used for all daily activities – lunch, dinner, work or study.
