

## 15\_Infinity\_Elegance

### Look System

**This composition makes an expert use of shapes and finishes, with alternating, well-defined volumes that complement each other through carefully selected colours and surfaces.**

On the right, **this L-shaped layout features a series of tall units almost 4 metres long, housing the appliances and ending in a new corner tall unit with a 90 cm carcass** for maximum capacity. The lateral open element adds a graceful finishing touch to this impressive storage space.

**The selected finish is matte Ginseng PET with Linear handles and plinth in brushed Nero.**

**The base cabinets in the work area have doors and drawers in the new Rovere Cumino finish. The cooking area top is in Nero Ingo Fenix® while the sink and food preparation area features a Graniglia Limo worktop.**

The same finish is repeated on the drainer wall unit, which is cleverly combined with **a new Rovere Cumino connecting module – a new Stosa product for Salone del Mobile 2022.** Even the stylish hood has a Rovere Cumino insert for the ultimate in coordination and harmony.

**The composition is completed by a large Linea Boiserie with matte Nero shelves. This also supports a 6 cm thick Graniglia Limo top with the new W Leg snack top leg in Nero.**
