

## 14\_City\_Infinity\_Mix&Match Elegance

### Look System

**City is displayed here combined with Infinity, demonstrating once again just how mixable and flexible Stosa kitchens are.**

**Framed wood panel doors add character to the base cabinets in Rovere Liquirizia** and blend stylishly with the wall units and doors in Beige Seta PET and the top in Travertino HPL.

**This impressive kitchen features a wall with base cabinets, wall units and illuminated open modules.** Opposite are suspended wall units and open displays with frames in Rovere Liquirizia, and a tall unit section with **retracting doors that provide access to a steel worktop, a generous bottle rack and a wall unit for wine glasses.** The central island extends into a built-in counter in 6 cm thick Oak.
